CHAPTER 2

FREEDOMS & RIGHTS PRODUCE THE WORLD'S #1 ECONOMY

Freedom & Rights to Positive cash flow opportunities for everyone to work toward. Regardless of race, color, national origin, gender, religion, age, disability, political beliefs, sexual orientation, marital &/or family status. A Nation needs everyone's special talents utilized to the maximum. For any Nation to produce the world's #1 economy.

v.

Politician's self justifications to inflict Negative cash flow by corruption & discrimination against others. Will in FACT, guarantee a Nation to be unproductive, starving, & suffering.

Freedoms & Rights to debate, legislate, & Subsidize to encourage infrastructure & education as a hand up. To a point, when it's simple time to break their plate.

v.

Politician's *failing* to Tax/Fine to discourage corruption & hand outs to themselves, their self-anointed, & their chosen few. While the Nation's women & children starve to death. Tax/Fines that are needed to fund a frugal government, for the Nation's bare necessities.

Freedoms & Rights for the Nation's Courts of Law, to Rule for Peacetime's accountability of corruption's *like-kind* retribution as *payment-in-kind*. That are needed to fund a frugal government & *not* some politicians' very own self-serving so-called social investments.

v.

The Absolute Powerful *knowing* their politician's economic policies will never cash flow. Resulting in saber rattling & War's inhumanity inflicted by politician's *prior* Negative cash flow choices. Wars on behalf of the Absolute Powerful & war profiteers' ill gotten gains.

Freedoms & Rights of Taxpaying Commoners to have sustainable long term investments. That will grow any Nation's economy in leaps & bounds. For history & current events prove beyond a shadow of a doubt. This is how a frugal & peaceful government defends & encourages Taxpaying Commoners' Freedoms & Rights. For any Nation to produce the world's #1 economy.

v.

The Absolute Powerful & their politician's unsustainable short term ill gotten gains. That will divide & conquer a Nation against itself. That in FACT, will inevitably collapse any Nation's economy, inflict global trading imbalances, & *knowingly* disrupt world peace;

- Forces the Nation's economy out of business, into endless recessions, & depressions.
- Forces an exodus of Taxpaying Commoners' talents, professionals, & their resources.
- To find another Nation with Freedoms & Rights to rebuild their losses.

MANKIND'S TECHNOLOGY IS BACK ON THE ECONOMIC THRESHOLD OF UNIVERSAL TRAVEL & TRADING

Same as the North & South America Indians' economies & established trade routes.
Before the white man's diseases economically devastated the Indians' populations.

Same threshold as American colonist signing the Declaration of Independence in 1776.

Ironically, same 1756 to 1778 time frame as physiocrats French economist philosophies.
Of opposing government interference in economic affairs, beyond the bare necessities;

- For National Defense, to protect Negative cash flow Nations' *usual* economic invasions.
- For the Constitution's Freedoms & Rights to own land, economic prosperity, & equality.
- For the Rule of Law to maintain a level economic playing field, for everyone's survival.

& yet here we are centuries later, with Internationally educated societies. In the same violent world, repeating the same history over & over again. With the *usual* propaganda, the *usual* dictatorships, & the *usual* politician's *prior* Negative cash flow choices;

- Who *cannot* even balance a Nation's check book, *nor* control their wasteful spending.
- Who claim to know economics, when most likely never cash flowed a business in their entire life, whatsoever.
- Who stifle the economy with more regulations, more fees, more promised pensions, as hacks within hacks within hacks, & the printing of more *fiat paper money's* inflation.
Against the natural order of the economic laws of supply & demand's competitiveness;

COMPETITION BRINGS OUT THE BEST IN ALL OF US

In spite of the historically *known* International French economists' demands for;

LAISSEZ FAIRE ECONOMIC POLICIES

Internationally *known* as the Taxpaying Commoners demanding their governments to "**LEAVE US ALONE**". For governments to mind their own business, govern within the Nations means, & avoid governments laws cause & effects against world economies.

Quite frankly most governments never *knew* how to Positive cash flow in the 1st place.
Only how to take through their *usual* confiscating, commandeering, taxing & spending.
To inevitably force their own Nation's economy out of business. Fortunately, education;

SELF-EMPOWERS SELF-WILL SELF-DISCIPLINE FOR ALL TO CHANGE & PROSPER
