**THE IPO's "CATCH 22" OF HAPPY STATE BANK'S BOOK NON-NEGOTIABLE
WORLD ECONOMIC TREASON AWARDS
AS INTERNATIONALLY LEGALIZED "Get Out of Jail Free Cards"**

The "Catch 22" dilemma of Happy State Bank's (HSB) book Non-Negotiable. Inflicted themselves with their very own beliefs as their following choices;

- HSB should have in FACT, held themselves accountable, corrected their banking fraud, & paid in full Funding/Fines/Retribution still owed to the US Treasury, SEC, & victims.
- Instead HBS choose to continue their "Catch 22" of the bank/lawyers *scam's* RICO money laundering International schemes unsustainable short term ill gotten gains.
- Caught red handed as HSB's Federal Felon accomplices. HSB again have the choices of holding themselves accountable or dealing with their own beliefs in their afterlife;

Happy State Bank's Non-Negotiable World ECONOMIC TREASON award of their biblical 30 pieces of silver went to Marci Willis. For disgracing all who served, fought, &/or died. Defending the US Constitution from its domestic enemies within & all economic traitors. The average & odds are Marci Willis has never experienced hand to hand combat.

For Marci Willis' economics, mathematics, & International anarchy's violations against the 3 Commandments for world peace. Has sealed Marci Willis' legacy for an eternity as;

- Thou shalt not steal.
- Thou shalt not bear false witness against thy neighbor.
- Thou shalt not covet thy neighbors property.

In spite of the US Supreme Court requiring the highest level of trust & confidence. That must exist between bank's fiduciary duties, any attorneys, & all their clients thereof.

In spite of the Dallas Texas bankruptcy Case Law of Bailey Tool & Mfg. Co. v. Republic Bus. Credit (In re Bailey Tool & Mfg. Co.), 2021 WL 6101847 (Bankr. N.D. Tex. Dec. 23, 2021) ("Bailey")

Exhibit 10 proves Happy State Bank's Non-Negotiable World ECONOMIC TREASON continues. As all 3 branches of the US Gov. created, inflicted, &/or allowed the new International Case Law & ethics changes "Get Out of Jail Free Cards";

While accepting the full fiduciary legal & financial liabilities thereof. Whether written or spoken as “deceptive forms” &/or as “given aid or comfort to the enemies thereof”.

Now anyone &/or any commercial financial advisor seeking stolen assets. Against the best interests of any trustee/beneficiary relationships &/or against their Stockholders. Can now breach their fiduciary duties, to increase their personal, their Directors, their Officers, &/or their Stockholders lender liabilities thereof.

Now anyone can instigate “deceptive forms” of PRICE FIXING;

- By Filing & Recording fraudulent documentation against anyone’s title to property. To prevent anyone from selling, trading, &/or refinancing their property. To steal assets, to bear false witness, &/or to covet anyone’s properties & against anyone so chosen. Especially, when involving US designated funding.
- By anyone &/or by any financial advisor beaching their very own fiduciary duties, confidentiality, & trust. By FAILING to disclose their own like kind property purchases. That would contradict their own evaluations, contradict their own financial advice, &/or that would have in FACT, increased any customer’s property evaluations. Especially, within any bank that never disputed the customer’s evaluations whatsoever.
- By anyone &/or by any Board of Directors who violate their fiduciary duty & REFUSE to excuse themselves from taking any actions. When there are direct conflicts of interest with the beneficiary’s best interest & place their personal unsustainable short term ill gotten gains, above all others. Especially, for any Director/lawyer’s personal gain.

In spite of REFUSING to uphold the Constitution, uphold the Rule of Law, uphold their fiduciary duties, &/or honor their very own Oaths of Office &/or Profession as Attorneys;

- Instead of HSB complementing the best interests of their Stockholders investments & HSB complementing the best interest of a banking Customer’s successful leveraging.
- HSB chose to publish a holier than thou book, as “deceptive forms” of accountability. To steal assets, bear false witness, & covet thy neighbors properties onto themselves.
- HSB community critics get rid of perceived infidels, without the same deranged beliefs.

SPEECH I

The Ghost Writer of HSB's book took over 2 years to gather HSB's deranged beliefs. While in FACT, HSB was creating, inflicting, &/or allowing HSB's fraud. HSB's book was published on 5-19-2015. Just prior to the Director/lawyer's son's PRICE FIXING the bidding at the Federal Bankruptcy Court's Ordered Land Auction in August 2015. Thus, explains the boy & his Asso. victory dance. After their PRICE FIXING low bid was in FACT, awarded to the RICO Federal Felon accomplices.

This book is the arrogant epitome of enabling mankind's self justifications of racketeering. To inevitably repeat a violent world's violent history over & over again.

DO NOT BURN this book. For this book will be used as International examples of mankind's mental instabilities of Internationally legalizing racketeering.

For the IPO's International publishing of documentaries, movies, publishing books of economic philosophy, political science, history/current events, & for online classes, news, magazines, & newspapers promotions.

Of the new International Case Law & ethics changes. Based on the FILED EVIDENCE in Court(s) of Law. For all International Law Library's archives & their online services. As support cases for International "Get Out of Jail Free Cards" which will live in infamy.

BE IT REMEMBERED CONSTITUTIONALLY WE ARE ALL CREATED EQUAL

Anyone, all Officials/Directors/Officers, & including the Stockholders themselves. Who's company participated in creating, inflicting, &/or allowing the International Case Law & ethics changes. Have in FACT, subjected themselves to the same International support cases. For everyone to steal their assets, bear false witness against them, & to legally covet their properties.

SPEECH II

For mankind's Positive cash flow opportunities for everyone to work toward;

- As being everyone's laissez-faire economic policies.
- As being in the best interest of your Stockholders sustainable long term investments.
- Resulting in everyone's highest ROI.

MINE YOUR OWN BUSINESS

- Of keeping your Negative cash flow deranged beliefs to yourself & mine your own business.
- Of keeping your deranged organized political party's, organized religion's &/or organized cartel's self justifications to yourself & mind your own business.
- Instead of fraudulently forcing your banking Customer's successful leveraging into bankruptcy protection, against your committed Felonies.
For heaven's sake free the people, let the people go, mind your own business, & just leave US alone.
